## Innovation In The Air

Founded in 1981, **Falmec** has evolved from a small manufacturing company to a leading force both in the national and international market, gaining extensive experience in the design and production of ventilation hoods.

Cutting-edge research, flexibility in production, development of new technologies and original creativity provide the Falmec collection with strong added value in innovation, and a totally unique blend of design and technology, reaching the highest level of Italian excellence in the world.

All Falmec creations are the result of a complex, multi-phase process that is entirely designed, planned and produced in Vittorio Veneto, located in Northeast Italy.

## Made In Italy

From initial design to finished product, all of Falmec's creations are achieved through a multi-step process that is run entirely onsite at the company headquarters, located near Venice. Falmec's products offer an absolute guarantee of quality in the design, the materials and the construction, in the best Italian manufacturing tradition.

## Quality

Each Falmec product is the result of careful research, meticulous testing and extreme precision in their construction. Falmec's facilities rely on state of the art technology and are equipped with numerous robotic lines that enable them to meet top quality standards.

## Technology & Quality

**Innovation. Performance. Energy Efficiency. Ease of Installation. Design**

These are the key concepts of all Falmec projects. They are the outcome of ongoing research that considers aesthetics, materials and technologies as a single set in order to achieve the perfect synergy.

Falmec's products satisfy every sense: smell, for the effectiveness of air movement; sight and touch, thanks to the refined design and the quality of materials; hearing, for their extremely silent performance.

## Select Stainless Steel

### Stainless Steel AISI 304

Falmec selects and uses AISI Stainless steel AISI 304, with an alloy containing 18% chromium and 8% nickel. Hygienic, easy to clean, highly resistant to corrosion, as demonstrated by salt spray tests, AISI 304 is by far the best material for the production of ventilation hoods.

## WHAT IS NRS TECHNOLOGY? THE DIFFERENCE IS EXPERIENCED, NOT HEARD

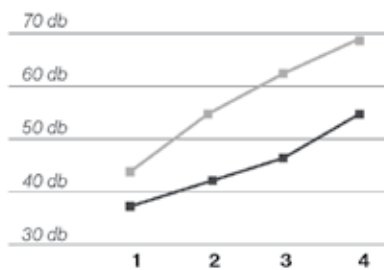

NRS (Noise Reduction System) is the exclusive system developed by Falmec in collaboration with laboratories specializing in fluid dynamics. It has enabled us to create a collection of incredibly quiet hoods, with considerable improvements in quality of life in the kitchen. NRS technology allows you to cook, work, chat and listen to music without the noise typically produced by hoods, while maintaining excellent extraction performance.

### UP TO 86% LESS NOISE

Thanks to research into airflow and the specialist materials used, NRS hoods reduce noise to an extremely low, almost imperceptible level. The NRS system gives the best results through the evacuation of cooking fumes, but can also be used in recirculation mode with a long-lasting, regenerable high-performance filter.

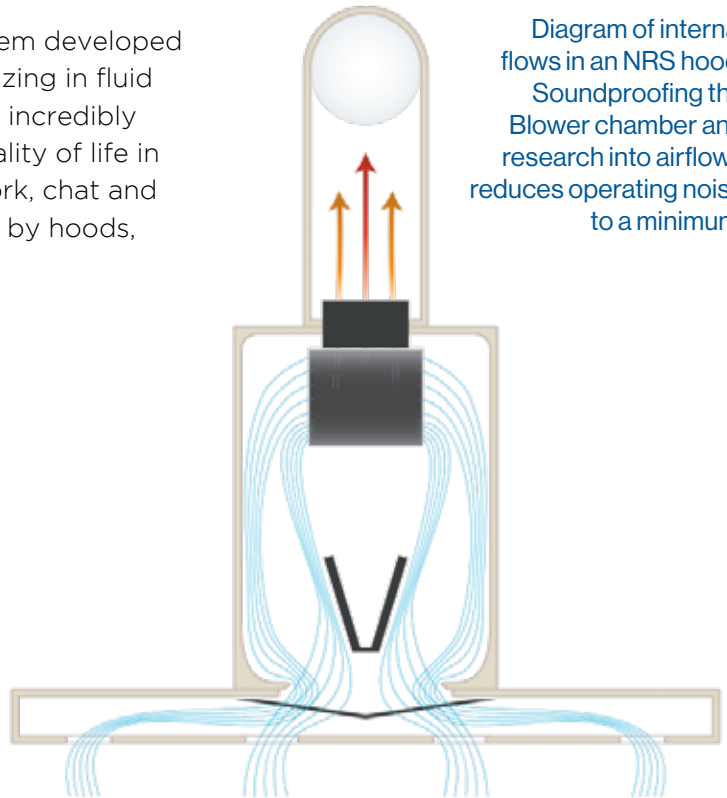

### NRS

	1	2	3	4
NRS	37	41	46	54
STANDARD HOOD	49	56	62	68

*\* Data referring to an Plane NRS model, tested at maximum power*

Diagram of internal flows in an NRS hood. Soundproofing the Blower chamber and research into airflows reduces operating noise to a minimum.

Find out more about our Silence - NRS Technology

## Speed Reduction System (SRS)

The Falmec SRS is available on select hoods and allows installers to permanently set the maximum CFM of the hood to meet local building codes. The SRS can be adjusted in 3 easy steps.

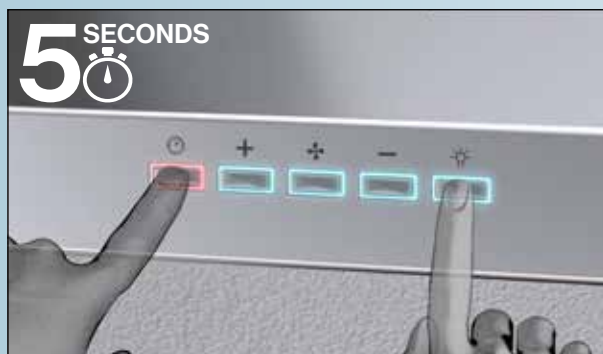

Motor	Speed			
	1	2	3	4*
500 CFM (800 m <sup>3</sup> /h)	120 CFM	200 CFM	290 CFM	500 CFM
600 CFM (1000 m <sup>3</sup> /h)	150 CFM	290 CFM	390 CFM	600 CFM

\* Factory standard setting is set to level 4

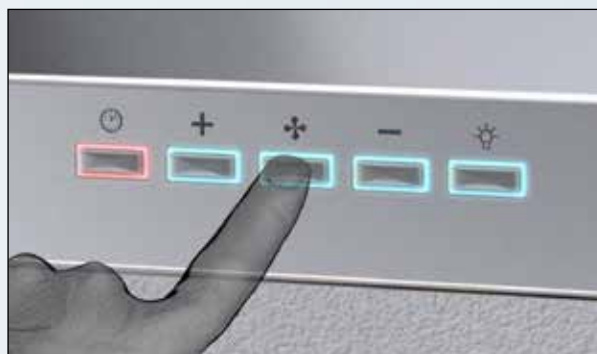

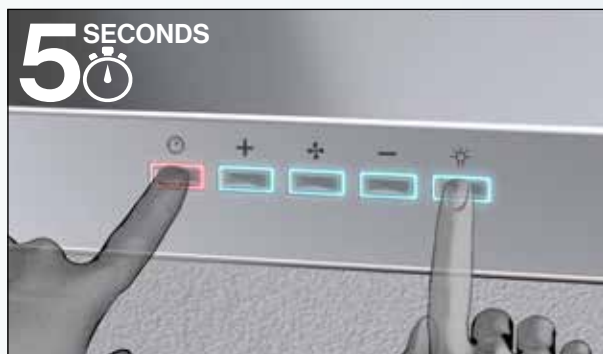

### Setting Max Speed to Setting 3 (290 or 390 CFM)

1. To enter the setup mode, press and hold the two outer buttons for 5 seconds until all the lights flash.
2. Press the plus (+) button to set the blower's max speed to level 3.
3. Setting complete

### Setting Max Speed to Setting 2 (200 or 290 CFM)

1. To enter the setup mode, press and hold the two outer buttons for 5 seconds until all the lights flash.
2. Press the fan (⊕) button to set the blower's max speed to level 2.
3. Setting complete

## Filters

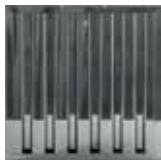

### ANTI-GREASE FILTERS

#### Metallic Filters

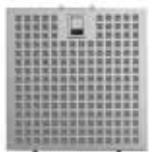

The anti-grease filter serves the important purpose of trapping grease.

Falmec metal filters have been specifically designed to guarantee excellent grease capture. They have an internal multi-layer aluminum structure composed of corrugated mesh (to maximize the filtering surface).

#### Professional Baffle Filters

Baffle filters are fitted as standard in all hoods in the Professional collection. Adopted from the world of professional cooking, their unique structure means that oils and vapors are condensed and channelled into a tray that can be easily removed and cleaned.

#### Top Filters

Top grease filters maintain the high retention performance of the metal filters with the addition of a "chessboard" external frame in 304 stainless steel with a smooth surface that facilitates cleaning and at the same time qualifies the aesthetic appearance.

## Filters

### RECIRCULATING FILTERS

MODEL	DESCRIPTION	MAP	MSRP
FFCHASQC0BL	Square Charcoal Filter	\$ 19	\$ 29
FFCHAR3COBL	Round Charcoal Filter	\$ 29	\$ 39
FFCHAR2COBL	Round Charcoal Filter	\$ 29	\$ 39

### Active Carbon Filters

Active Carbon filters are installed in all hoods that can be used in filter mode. The active carbons they contain absorb odors created by cooking.

As the filters become less efficient with time, replacement at least every four months is recommended.

### Combined High Performance Filters (Silence - NRS Collection)

Wash in dishwasher with your usual detergent at a temperature not exceeding 149°F, if possible with no other contents. After washing, regenerate the filter in the oven at 175°F for 20 minutes.

MODEL	DESCRIPTION	MAP	MSRP
KACL.934	Carbon.Zeo Filter (Incasso Burano, Virgola)	\$ 139	\$ 159

KACL.961	Carbon.Zeo Filter Kit (Incasso NRS, Line Pro NRS, Lumina NRS, Massimo Pro NRS, Move, Plane NRS)	\$ 109	\$ 129

### Carbon.Zeo Filters

Carbon.Zeo filters use natural materials such as active carbon and zeolite, a mineral of volcanic origin with a microporous crystalline molecular structure that absorbs fumes and unpleasant odors.

The Carbon.Zeo combined filter has a guaranteed minimum life of 3 years, but is expected to last 5 years under conditions of normal use. We recommend that it be regenerated every 18 months by placing it in an oven at 400°F for two hours.

## Blowers

### REMOTE BLOWER

MODEL	DESCRIPTION	MAP	MSRP
FNUVMTR600	600 CFM Blower	\$ 449	\$ 479

### 600 CFM Remote Blower

A remote ventilation fan is the right choice if you want to reduce the noise of your hood, by distancing the source of the noise, without compromising on extraction performance. Available in select models

## FALMEC LIMITED WARRANTY

### TWO YEARS LIMITED WARRANTY

#### TO OBTAIN SERVICE UNDER WARRANTY

Owner must present proof of original purchase date. Please keep a copy of your dated proof of purchase (sales slip) in order to obtain service under warranty.

#### PARTS AND SERVICE WARRANTY

For the period of two (2) years from the date of the original purchase, Falmec will provide, free of charge, non consumable parts or components that failed due to manufacturing defects. During this two (2) years limited warranty, Falmec will also provide, free of charge, all labor and in-home service to replace any defective parts.

#### WHAT IS NOT COVERED

- An extraordinary event neither foreseeable nor preventable by the parties with reasonable care, including, but not limited to: catastrophe, war, expropriation of equipment or installation, sabotage, fire, flood, tornado, hurricane, earthquake.
- Damage to or failure of the product:
- Caused by modification of the product or use of non-genuine parts.
- Caused during delivery, handling or installation.
- Caused by operator abuse / misuse.
- Caused by dwelling fuse replacement or resetting of circuit breakers.
- Caused by use of product in a commercial / industrial application.
- Service trips to dwelling to provide use or installation guidance.
- Light bulbs, metal or carbon filters and any other consumable part.
- Normal wear of finish.
- Wear to finish due to operator abuse, improper maintenance, use of corrosive or abrasive cleaning products / pads and oven cleaner products.

#### WHO IS COVERED

This warranty is extended to the original purchaser for products purchased for ordinary residential use in United States, Guam, Puerto Rico, US Virgin Islands).

This warranty is non-transferable and applies only to the original purchaser and does not extend to subsequent owners of the product. This warranty is made expressly in lieu of all other warranties, expressed or implied, including, but not limited to any implied warranty of merchantability or fitness for a particular purpose and all other obligations on the part of Falmec North America, provided, however, that if the disclaimer of implied warranties is ineffective under applicable law, the duration of any implied warranty arising by operation of law shall be limited to two (2) years from the date of original purchase at retail or such longer period as may be required by applicable law.

This warranty does not cover any special, incidental and / or consequential damages, nor loss of profits, suffered by the original purchaser, its customers and / or the users of the Products.

#### WHO TO CONTACT

For proof of warranty, please retain the original purchase invoice and the delivery slip.

To obtain service under this warranty you must:

1. Contact Falmec Authorized Service In the United States by email at [support@mapledistributing.com](mailto:support@mapledistributing.com) or by toll free number at **800-866-4774**
2. Provide a copy of your original sales receipt along with model number and serial number information for the product.
3. Provide Falmec reasonable opportunity to investigate the claim before the Product or any component of the Product has been modified or removed.
